

Additional Information

Im Sandy Bariaolo, and Im standing for Council because I care deeply about building a safer, smarter and more connected City of Swan. Ive spent my life volunteering, listening, and working with people to improve their communities and now I want to do the same here in Altone Ward.

My involvement with schools and service groups has given me a strong understanding of the issues facing our community from traffic safety and local amenities, to how decisions are made or not - at Council.

Ive always been a strong advocate for road safety around schools and proudly supported efforts to secure a crossing guard at Brabham Primary School because our kids deserve to get to and from school safely.

My vision is for a City of Swan where families feel supported, seniors feel respected, and every resident feels heard. I believe in better-maintained roads and verges, smarter development that protects green space, and real investment in local facilities like parks, footpaths, libraries and community hubs. I also want stronger accountability and transparency from Council, so that residents know their concerns are taken seriously and acted upon.

I value unity, fairness, and good communication. You wont find me hiding behind politics or red tape Im here to get things done. Whether it's through local meetings, calls, or social media, Ill stay connected and approachable, always ready to listen and advocate.

I understand what it means to work hard, support a family, and care about the place you call home. Thats why Im running to make sure Council delivers for everyday people and creates a better future for all of us. Your support and your vote can help make that happen.
