

Additional Information

I'm your candidate for the community a local resident whose roots are deeply intertwined with the spirit of Altone.

In the 2023 local government election, I proudly placed 2nd in a competitive race. The successful candidate resigned, and I'm stepping forward again with renewed purpose, experience, and the same unwavering commitment to serve.

A career in leadership roles across compliance, logistics, and management. I've led teams, resolved conflicts, managed budgets, and navigated complex public safety regulations. I understand what it means to be responsible with other people's money and know how to cut through red tape to deliver meaningful outcomes. I've worked with teams large and small to improve outcomes through strategic planning, efficient service delivery, and common-sense decision-making. I want to bring that same level of focus and accountability to Council.

I'm a lifelong Altone resident. Raised in Lockridge and now raising my family in Brabham, I understand the challenges and strengths of our suburbs from Beechboro to Bennett Springs, Dayton to Kiara and Lockridge I am actively engaged with our local schools, youth programs, and the need for safe, vibrant public spaces for all ages and all people especially our adolescents that are bored and left.

My commitment to the community runs deep. I've helped organise inclusive events, volunteered with local support groups, and currently serve on the board of a registered charity that assists people facing health and mental health challenges. I understand the importance of advocacy, compassion, and building networks of support that strengthen our neighbourhoods.

As a long-time community volunteer, my values are integrity, service, and inclusion. I am self-funded, truly independent, and have no allegiance to political parties or third-party donors. I stand with the residents of Altone and all the City of Swan.

Vote for who you want or vote to stop a candidate representing you. We need fair rates & better safety
