I'm Blake, a lifelong local of the Beechboro area and I'm running for the Altone ward to ensure that our community has a councillor who is ready to listen to their concerns and take action to fix the issues in our community. I believe that fresh ideas and perspectives are needed on our council and that I have the energy and passion needed to bring these changes to fruition.

I'm currently studying a Master of Public Health at UWA where I've learned the positive impact good government can have. During my time at UWA I've been a member of the UWA Guild Access committee where I've helped advocate and deliver outcomes for students with disabilities.

I'm passionate about protecting our green spaces, improving the quality and accessibility of local infrastructure including our footpaths and street lighting, as well as ensuring services like bin collection are being managed according to the needs of the community.

Vote 1 Blake Mercer - For a council that works for all of us.
