ALSO-Important sectors of the economy include:

The very different Big Business and Petite Cap'list Enterprises (Small Business)

The very different Big Business and Medium Size Cap'list Enterprises

And Private Big Business and "The Half-Way There, Half-Marks Peoples Enterprises in our Mixed Economy"

Such Peoples Enterprises are Economic Entities that are: Owned by the People Already AND Managed by the Government of the Day

They include: Our Public Hospitals-Our Public Universities-Western Power-WaterCorp-HomesWest-TransPerth-Trans WA

They did once include, before they were Privatized, or Badly Managed, according to some, by the Government of the Day, at that time:

The Commonwealth Bank-The R&I Bank of WA-Telstra-AND QANTAS

When owned by the People, and managed by the government of the day, QANTAS could have as priorities, Airplane Maintenance, and (International) Pilot Training

That's instead of these being areas for "relatively extremist" cost cutting, to maximize private profit.

Have you seen, and heard, in the movie Rainman, what the Dustin Hoffman character (Rainman, Raymond) says to his younger brother, played by Tom Cruise - about QANTAS?

Furthermore, overall, I believe, we need: For all Big Business BUT INCLUDING ESPECIALLY our "Half-Marks Peoples Enterprises in our Mixed Economy"
