I became your representative 4 years ago because I knew we weren't getting our fair share. I didn't like how things were going, I wanted to make a difference and I have.

My achievements: progressing a 50m pool, 25m indoor pool, warm hydro pool, allied health services plus lots more; reviewed FOGO and got everyone a bigger general waste bin (no extra cost to you); more parking at EDOS; cost savings; traffic calming; more trees and so much more.

About me: experienced, family man, independent, proven track record, fights for what's right, involved in our community.

I always speak out against inappropriate development that comes at a cost to our community and will continue to do so.

My future focus includes: EDOS redevelopment, permanent home for our RSL, Bullsbrook Sports Club, Coolamon Oval Pavilion, more netball courts.

Like many of you, I'm concerned with our safety, more needs to be done with the increasing crime we're seeing, and I'll be your voice that we've had enough and demand action.
