

Additional Information

I am a long-time resident of the City of Swan with deep roots in Pearce Ward and the communities of Ellenbrook, Averley, and Bullsbrook. My career spans education, law, and community advocacy, giving me a broad perspective and practical skills to address the needs of a growing and diverse region.

I began my professional life as a high school teacher, later retraining as a lawyer and working across government, community legal services, and the private sector. My experience includes advising on complex legal matters, resolving disputes, and working collaboratively to achieve fair and practical outcomes. I understand how decisions made at council level affect everyday lives from local services and safety to infrastructure and environmental management.

I am committed to ensuring council decisions are transparent, fiscally responsible, and grounded in genuine community engagement. I believe in listening first, asking the right questions, and advocating for solutions that reflect the priorities of residents.

If elected, my focus will be on:

Supporting responsible development that preserves the character of our communities.

Advocating for improvement to infrastructure, transport, and public amenities.

Strengthening community safety and local services.

Encouraging local business growth and job opportunities.

Your priorities will guide my work. I will bring integrity, accountability, and a strong work ethic to representing you.

Your Priorities, My Mission.
