Trained as a geologist , I love being outdoors. About 4 years ago, while a volunteer in a local group we addressed the City of Swan Council, and this was where my interaction with the council began.

I am an independent candidate (not aligned with any political party) who is committed to support integrity, fairness, and community representation in decision making.

I will work towards:

- a clear and simple City strategy
- updated planning that preserves Swan's rich history and encourages community well being
- recognise and protect our green spaces and support a greener built environment
- support innovative businesses
- minimise rate rises (the city already has a healthy surplus every year)
- community and road safety
- promote and support tourism
