I bring decades of service, community engagement, and problem-solving the kind of leadership our council needs now. For over 20 years, I've volunteered as an interpreter, including supporting refugees through the UN. I believe strong communities are built when we give our time, share our skills, and stand together. I know how to listen and how to turn challenges into results.

As a community leader, husband, and father, I understand the pressures families face. I'll bring fresh energy and improve communication between the council and residents so every voice is heard and respected.

### **My priorities include:**

- Smart, sustainable development
- Improved local services
- Stronger support for local businesses
- Spaces where youth and seniors can connect

I'm especially passionate about creating opportunities for our youth because investing in them means investing in Whiteman's future.
