### New Food Safety Standard 3.2.2A – Food Safety Supervisor Training

Food Businesses will be required to appoint a Food Safety Supervisor if they handle unpackaged, potentially hazardous food that:

- Is used in the preparation of ready-to-eat, potentially hazardous food to be served to a consumer, or
- Is ready-to-eat food intended for retail sale by that business.

A Food Safety Supervisor will be required to take a Food Safety Supervisor training course delivered by a registered training organisation and the certification must be refreshed every 5 years. At least one person from your food business is required to undertake this training and this person needs to be reasonably available for the business, which means mostly onsite.
