Funded by the City of Swan in partnership with the Department of Local Government and Communities.
Where can I volunteer?
If you have a few hours each week or want to be part of a one-off event, we can help you find the right opportunity to match your skills, interests and availability.

Opportunities exist in a wide variety of organisations, across many different areas of interest, with varying levels of experience and time frames. You can even work from home via the internet in some cases.

These opportunities could include:
• events and community support programs at the City of Swan;
• fundraising, events, marketing, administration or committees;
• programs and services for older people, youth or for people with disability;
• positions in the arts, culture, leisure, sport and recreation areas.
• working with animals or the environment; and
• website design, strategic planning, mentoring, advocacy.

The list is endless!
