The District Town Planning Scheme and R-Codes are varied in the following manner:

1. The R-Code for each lot is as per the prevailing Density Zones Plan.
2. The requirements of the R-Codes are varied as shown on the plan.
3. The requirements of the R-Codes and Town Planning Scheme shall be satisfied in all other matters.
4. Consultation with adjoining landowners to achieve a variation of the R-Codes, in accordance with the approved Detailed Area Plan, is not required.
5. There is no average front setback requirement for all lots subject to this Detailed Area Plan.
6. Building envelopes are subject to the constraints of retaining wall. The landowner is to consult their builder or structural engineer where necessary.
7. At least one habitable room opening must overlook the primary thrust.
8. A verandah (subject to the Building Code of Australia) may project not more than one metre into the front setback area.
9. For all lots, minimum open space site coverage of 40% is applicable.
10. A manoeuvring site setback for a portion of the main dwelling or garage is required on at least one side boundary for dwellings located on lots with frontages under 13m.
11. For corner lots, the cross-over/garage is to be located the maximum distance from the truncation as possible (subject to engineering constraints).
12. Lots subject of this DAP are subject to an approved Bushfire Management Plan and have been assigned a bushfire attack level as noted on the Plan. Dwellings and incidental structures constructed on these lots must be constructed in accordance with AS3959-09 and must comply with additional planning and built form controls as specified in the Bushfire Management Plan (York Gum Services, April 2013 available from the City or the developer).
13. Minor variations to the requirements of the R-Codes and this DAP maybe approved by the City of Swan.
